**Verse 1**

We living in a lost world the park is Jurassic  
I'm feeling so deflated Number 8 I need to flush this  
Jesus on the cross the blood test passed it  
Reconciled to the Father we are united  
This ain't rapping this is real life  
He's the Sun I'm the moon I reflect His light  
I'm the city on a hill I cannot be hidden  
Jesus all the time in my rhymes when I'm speaking  
Gave me a life-line gave me a shine mayne  
Never about me it's about Him  
God spoke and lit up the darkness  
I do the same cause I am made in His likeness  
I can't keep it in I gotta speak it out  
I'm all Assange on 'em Wikileaks it out  
Streetlight poetry adopt a light on 'em  
Worship is the lifestyle that I have chosen

**Chorus**

**Verse 2**

I'm not suicidal I'm dying to self  
Philippians chapter 2 Christ emptied Himself  
The Lion and the Lamb traded places with me  
He humbled Himself to the death on a tree  
Now this is the attitude that I'm taking up  
In the Potter's hands this vessel is shaping up  
In His word yeah I marinate  
He's the King on the throne my heart He habitates  
I walk by faith not by sight

The aim of the Father is to see Jesus lookalikes  
I do what Jesus did do what He does  
Everything I have I give it up  
I'm a Xerox machine call me copy cat  
Everything in His word yeah I copy that  
I no longer live but Jesus lives in me  
Bought for a price I'm God's property
